# KEY POINTS: PRONOUNS IN SPANISH

- Spanish personal pronouns mark the number and gender of a noun most of the time.
- Personal pronouns in Spanish replace people and things.
- There are different types of pronouns because a noun can have different functions within a sentence.
- Subject pronouns replace the subject of a sentence.
- Reflexive pronouns are a crucial part of pronominal verbs.
- Spanish prepositional pronouns are pronouns used after a preposition.
- Except for the first and second singular person, prepositional pronouns are the same as subject pronouns.
- Spanish direct object pronouns replace the noun that receives the action of the verb.
- Indirect object pronouns in Spanish express who benefits or is affected by the action.
- Demonstrative pronouns express the distance between the speaker and the noun being replaced.
- Spanish relative pronouns combine two sentences that refer to the same noun.
- Possessive pronouns in Spanish are used to talk about possessions and belongings.
