DEFINITIONS & EXAMPLES

ASISTIR

#1 - Talking about attending a place or event

(To attend / To go)

Formula

['Asistir' conjugated] + a + [noun]

¿Por qué nadie **asistió** a la boda de Joan?
Why did nobody **go** to Joan's wedding?

El gerente anterior nunca **asistía** a estos eventos.
The previous manager never **attended** these events.

Tip: With this meaning, you can use the verbs *ir* or *venir* to sound more casual.

#2 - Talking about assisting or helping others

(To assist / To help)

Formula

[Direct object pronoun] + ['asistir' conjugated]

Ese enfermero me **asistió** en la cirugía.
That nurse **helped** me with the surgery.

Señorita, ¿necesita que la **asista** con su aplicación?
Miss, do you need me to **assist** you with your application?

Tip: In this situation, [ayudar](#) is a more casual synonym you can use instead of 'asistir'.
