KEY POINTS: MOST COMMON NOUNS IN SPANISH

- A **noun** is used to name or identify people, concepts, places or things.
- Spanish nouns can be classified into:
 - **Proper:** these are commonly known as names and refer to specific and unique things.
 - **Common:** these are the words we use to name things in general.
- In turn, **common nouns** can be:
 - Simple if they're formed with one term or compound if they're formed with two words (a noun, adjective, or verb).
 - Countable or uncountable depending on how easy it's to quantify them.
 - Concrete or abstract depending on whether they refer to material or immaterial things.
 - Individual if they refer to a single element or collective if they encompass a group of people, animals or things.
